curl -fsSL https://clis.cloud.ibm.com/install/linux | sh

- For Linux™, run the following command:

curl -fsSL https://clis.cloud.ibm.com/install/linux | sh
- For Windows™ 10 Pro, run the following command in PowerShell as an administrator:

iex (New-Object Net.WebClient).DownloadString('https://clis.cloud.ibm.com/install/powershell')

Tip: To open PowerShell, right-click the Windows™ PowerShell icon, and select Run as administrator.
- For WSL2 on Windows™, run the following command:

curl -fsSL https://clis.cloud.ibm.com/install/linux | sh

Tip: For more information about installing the Mac OS X M1/ARM or Linux 64-bit ARM versions of the CLI, see the IBM Cloud CLI [release notes](#). These versions are provided as-is and are not fully supported.
